ZONING DISTRICTS AND ZONING MAP

PART I. ZONING DISTRICTS

Section 15-140.1 Office-Residential Mixed Use District. (AMENDED 6/20/06)

(a) There is hereby created an Office-Residential Mixed Use (OR-MU) zoning district. The purpose of this district is to provide for mixed use developments, i.e. developments that contain both residential and non-residential elements, within areas that are near the downtown commercial districts.

(b) Any lot within the OR-MU district that exists on the effective date of this section or that is hereafter created may be developed and used for those purposes within the 3.000 classification that are permissible within the B-2 zoning district, subject to the same permitting requirements and other applicable regulations of this chapter, just as if the property were zoned B-2.

(c) Any lot or tract within the OR-MU district may be developed as a mixed use project in accordance with the provisions of this subsection.

- (1) Development of property under this subsection requires the issuance of a special use permit-A by the Town Council in accordance with the applicable provisions of this chapter.
- (2) A mixed use project approved under this subsection must have both a residential and a nonresidential component.
- (3) At least one-half but not more than two-thirds of the gross floor area of the mixed use development shall consist of residential uses listed in use classifications 1.100, 1.200, 1.300, or 1.400, 1.510 (hotels and motels) and 1.520 (tourist homes and other temporary residences), provided that use classifications 1.510 and 1.520 shall not comprise more than one-third of the residential component. However, the residential component of the mixed use development may be increased to ninety percent of the floor area of the mixed use development if the developer donates to a non-profit agency engaged in providing affordable housing at least ten percent of the total acreage within the development and enters into an enforceable agreement with such agency to construct on such land and convey to the agency, at not more than the developer's cost, the number of housing units for which the agency obtains a permit. For purposes of this subsection, the phrase "within the development" means within the area covered by the special use permit-A issued for the mixed use development as well as any adjacent property that is or was owned by the developer of the mixed use

project and that is conveyed to a non-profit agency and developed for affordable housing as described herein, even if such other area is not located with the Town of Carrboro.

- (4) The permissible residential density within the mixed use development shall be calculated as if the development were zoned R-3, except that the density shall be calculated as if the property were zoned R-2 if the developer conveys at least ten percent of the land within the development to a non-profit agency and constructs on that land affordable housing as described in subsection (c)(3) above. For purposes of this subsection, if land that is not located within the Town of Carrboro is regarded as “within the development” as that phrase is defined in subsection (c)(3) above, then such area shall be considered part of the development for purposes of calculating the permissible residential density under this subsection.
- (5) Subject to the other provisions of this subsection, the dimensional and other requirements of this chapter applicable to the R-3 district shall apply to a mixed use development permitted under this section. However, the maximum height of buildings within the mixed use development, shall be four stories, except that a fifth story shall be permitted if the developer conveys at least ten percent of the land within the development to a non-profit agency and constructs on that land of affordable housing as described in subsection (c)(3) above. Notwithstanding other provisions of this chapter, any parking levels that are constructed underneath a building within a mixed use development and that are at least in substantial part constructed below the ground service levels shall not be regarded as “stories” for purposes of the height limitations established herein.
- (6) Permissible uses within the commercial component of the mixed use shall be those listed in the following use classifications within the Table of Permissible Uses: (i) use classification 3.100; (ii) use classifications 2.110, 2.112, 2.120, 2.130, 2.150, 2.210, 2.220, provided that such uses do not comprise more than fifty percent of the total commercial space within the mixed use development; and (iii) restaurant uses 8.100, 8.200, and 8.500, so long as any one restaurant business does not occupy more than 1,500 square feet of gross floor area and so long as such restaurant uses do not operate during the hours of 2:00 a.m. to 6:00 a.m.
- (7) A mixed use development may be constructed in phases as provided in Section 15-61. However, the phasing plan shall ensure that, as buildings are constructed and occupied, the relative mix of residential and commercial floor space remains substantially consistent with the percentages approved in the plans.
- (8) If portions of the mixed use development are subdivided, the final plat shall contain notations indicating any limitations on uses or the sequencing of

development created as a result of approval of the development as a mixed use under this section.

(d) Any lot within the OR-MU district that exists on the effective date of this section that is used only for residential purposes, modifications to, expansions of, or new construction shall adhere to the density and dimensional standards as if the property was zoned R-3.
