Dear Julie,

Management Advisory Group International, Inc. (MAG) is pleased to present this final draft *Classification and Compensation Study Report* to the Town of Carrboro. We would ask you and top staff to review the report and MAG's compensation and classification recommendations. This report has been developed based on job analysis of included classifications (internal relationships) and market analysis (external competitiveness). The report is organized into the following sections:

- Section 1: Compensation Philosophy
- Section 2: Introduction and Approach
- Section 3: Selected Compensation Policies
- Section 4: Current/Original Pay Structure and Plans
- Section 5: Salary Survey Summary
- Section 6: Proposed Pay Structures and Plans
- Section 7: Alphabetical Class List
- Section 8: Class Comparison List

MAG would like to express our thanks to all employees and staff who have participated in this important project. We look forward to your questions and input concerning the proposed plan. Please feel free to contact us at (703) 590-7250 as needed.

Sincerely,

Donald C. Long, Ph.D.
President, Management Advisory Group International, Inc.

SECTION 1.0
Proposed Compensation Philosophy

1.0 Proposed Compensation Philosophy for the Town of Carrboro

The Town of Carrboro strives to provide exemplary service to the community by being a model for 21st Century government.

Recognizing the importance of our workforce of dedicated and talented professional staff, we are committed to promoting organizational and community values that include: **exceptional service to the public; consistent and excellent performance; innovation; good fiscal, social, and environmental stewardship; and ethical behavior.**

To achieve and maintain our high standards of service and performance, the Town must continue to attract and retain well-qualified staff who exemplify the organization's values. A public service environment that is attractive to such individuals depends upon many factors, including pride, teamwork, a competitive compensation program, and non-monetary benefits such as recognition in the workplace for accomplishments, professional development and opportunities for promotion and a positive work environment.

The Town is committed to being an "employer of choice" as part of an overall strategy of attracting and retaining talent that will uphold the Town's organizational values.

The compensation program is committed to retaining and attracting high-skilled, high-performing staff capable of delivering the highest standards of public service to our community. The Town expects all staff to consistently perform to those high standards in their work performance, customer service, ethics and passion for public service.

The Town strives to administer pay and benefits in a way that is fair and transparent to all, that provides equal pay for equal work, and that does not take into consideration race, ethnicity, religion, sex, gender, sexual orientation, gender identity or expression, or other factors unrelated to work performance.

In order to provide competitive, sustainable, and responsible compensation, the Town will consider the following:

Total compensation which consists of but is not limited to: direct compensation, e.g. salary; and indirect compensation such as health insurance, retirement, professional development and time-off benefits.

In evaluating competitive compensation, the Town will consider:

- A. Financial sustainability as reflected by the Town's financial forecasts and revenue projections, competing service priorities, long-term liabilities, capital improvement and other asset requirements, and fund reserve levels.
- B. The "relevant labor market" which may vary depending upon classification but is primarily defined by geographic region (predominately local and/or state-wide) and key markets (municipal and other government agencies) and if applicable, private sector when readily available and effectively comparable.
- C. "Internal Relationships" referring to the relative value of classifications to one another as determined by the Town. The Town will compare responsibilities, skill level, knowledge, ability and judgment to determine similarity, and evaluate the equity of pay differentials.
- D. Other relevant factors may include unforeseen economic, regulatory or service changes.
- E. We seek transparency with the community, recognizing that taxpayers and ratepayers ultimately fund all employee compensation and deserve commensurate value from all those who work for the Town. This includes not only disclosure of the components of workforce compensation, but adequate advance notice of material policy changes in order to participate effectively in decision-making that affects the Town's finances.

Ideally, every five years, the Town will evaluate its compensation structure, programs and policies to assess market competitiveness, effectiveness and compliance with applicable State and federal law. This is with the understanding that more frequent adjustments to the compensation structure may be needed as a result of intermittent evaluations or other factors already cited. This will be accomplished by working with Town human resources staff to fairly apportion compensation and benefits, utilizing all the resources and tools available to the Town.

SECTION 2.0

Introduction and Methodology

2.0 Introduction & Methodology

Introduction

The Town of Carrboro contracted with Management Advisory Group International, Inc. (MAG) to conduct a compensation review and assessment of job classifications study for current Town classifications. This report presents the findings and recommendations of the study.

MAG's findings and recommendations are based on:

- market review;
- current organizational structure;
- discussions with human resources professionals and management;
- job analysis based on current class/job descriptions and completion of Job Analysis Questionnaires by incumbent employees;
- internal equity and external competitiveness considerations.

The goal of the Town for this project was to provide the foundation for an appropriate classification and compensation system and pay plan based on current compensation levels for similar public sector employers, municipalities, and local market competitors. In response, MAG has developed a proposed pay plan and developed salary adjustment recommendations for current incumbents in included Town classifications.

Project Focus

The objectives of the study were to:

- Conduct a review of included Town job titles;
- Review salary and compensation information from similar/competitor organizations;
- Develop a revised classification plan; and,
- Develop a revised compensation and pay plan;
- Provide options for the Town's consideration to find a reasonable and cost-effective way to transition to the new plan(s).

A list of project tasks and activities is indicated below by Exhibit 2-1.

**EXHIBIT 2-1
TOWN OF CARRBORO
PROJECT TASKS**

Project Initiation – Developed project proposal, work plan and timeline. Discussed with Town administration and revised project work plan.

Initial Meetings – Met with Town Human Resources administration and Town leadership to clearly define the scope, goal(s), and objective(s) for the proposed study.

Developed Comprehensive Market Survey – MAG developed a market survey document for target agencies. Reviewed/evaluated class/job descriptions for included classifications to gather job specific information on scope/level of duties/responsibilities and essential job attributes.

Reviewed Job Analysis Questionnaires – Reviewed/evaluated current job duties provided by nearly all employees in the online Job Analysis Questionnaire for included classifications. Questionnaires were completed for 88 of the 89 job titles (Public Works Director is vacant).

Reviewed market information – Reviewed market data from target organizations for selected (33) Town benchmark classifications.

Conducted Job Analysis – Analyzed jobs and created profiles based on information in current class/job descriptions and the data in the Job Analysis Questionnaires.

Developed Revised Pay Plan – Developed a preliminary proposed pay plan based on the results of the market information, job analysis profiles and internal/external equity considerations.

Developed Salary Adjustment Recommendations – Developed salary adjustment recommendations for all included Town classifications based on the revised pay plan(s) and employee classification, longevity in current positions and current salary.

Developed & Submitted Draft Report – Developed and submitted a Draft Report for Town review integrating the job analysis, proposed pay and classification plan, market information, and implementation recommendations.

Revised Draft Report – Incorporated the Town’s technical review of materials.

Develop & Submit Final Report – Submit a Final Report upon final review at a date to be determined.

Approach Overview

The study methodology included:

- collection of current personnel, human resources and organizational background information;
- review/analysis of current class/job descriptions;
- identification of classification benchmarks;
- conduct a market review of the Town's market position;
- monitoring of Job Analysis Questionnaires completed by employees;
- review of the job data provided by employees; and,
- analysis with recommendations concerning the relative ranking of included Town government positions to develop a classification plan that will ensure internal equity.

Initial Meetings and Orientation

Upon agreement to proceed, the project team met with Human Resources staff to discuss the study's objectives, along with the strengths and needs of the current organizational compensation management systems. Town management provided input regarding the Town's preferences and needs of the systems to be developed. MAG's representatives requested documentation about current compensation and classification programs, met with HR management to discuss these systems, and developed an understanding of concerns to be addressed.

The study results and outcomes are not the result of decisions made in isolation by the consultant but are the result of the consultants working to order responsibilities of the work into a compensation and classification plan that serves as a starting point for making current and future compensation and classification decisions.

Market Review

The Town employs a wide range of jobs that contain a mix of work responsibilities found in both the public and private sectors. The Market Review reflected the variety of duties and responsibilities in which Town government employees engage.

In establishing a competitive market for the employees of the Town, and to enable the Town to support growth, recruitment and retention in the exciting years ahead, MAG developed a list of target organizations to be reviewed.

Organizations typically included as competitors in a market review are those that are:

- competing with Town government for employees, for positions at all levels of the pay structure;
- geographically situated in such a fashion as to almost automatically be considered a competitor;
- structured similarly to the Town, or providing similar types of services;
- attractive to highly valued employees for one reason or another; and,
- within a reasonable commuting distance.

Organizations surveyed and reviewed included:

Chapel Hill

Clayton

Durham

Apex

Garner

Hillsborough

Holly Springs

Kernersville

Orange County

Morrisville

Chatham County

Sanford

Statesville
Thomasville
Cary
Raleigh
Greensboro
Burlington
OWASA
Mebane

Proposed Pay Plans

Specific details of the plans are provided in report tables starting in section 6.0. The proposed pay plans put employees into a Unified range plan. Employees performing the same duties were placed in the same class and pay grade, regardless of the number of hours (PT/FT).

Implementation Costs

MAG's implementation options and recommendations consider the following:

- Current salary;
- Current job title; and
- Longevity within the current position.

If the employee's current salary exceeds the target salary, then the calculations did not provide any further adjustment. No employee is recommended for any decrease in salary, even if the current salary substantially exceeds the target salary.

MAG does recommend that any employee whose current salary exceeds the target salary should continue to advance through the ranges until they reach the range maximum.

No employee should receive any additional salary adjustments once their salary has reached the maximum of the range. The recommendation is to freeze the salary until market data supports an increase in pay range maximum. Progressive governments often coordinate with MAG on an annual basis to refresh their market competitive position to ensure that they do not “lose ground” from a compensation perspective.

Pay Plan Structure

MAG has established a Unified pay plan structure for all included positions within the scope of the study. It provides for ranges of approximately 55% from minimum to maximum, which reflects the market surveyed. There is 5% between each pay grade. The structure recommended is transparent, permits employees to have a perspective that provides some security, but it still wholly dependent on the Town’s ability to fund future structure adjustments.

Plan Implementation

MAG recommends that the new compensation structure go into effect as soon as feasible along with the recommended salary adjustments. The initial calculations reflect the optimal implementation plan. The first suggested action is to provide an across the board amount to eligible employees, then to bring employees at least to the minimum of the recommended pay range. An additional action of providing “equity” adjustments, based on time in position, is also noted. If this level of funding is not practical, MAG can work with Administration to identify more affordable options for implementation. The total costs are noted in sections 9.0 (indicates costs per job title or classification) and 10.0 (indicates detail of implementation by employee).

Salary Compression

Salary compression, also known as wage or pay compression, is pay differential that results from various causes, but that is often deemed as unfair or unequal by members of the workforce within the organization. It is an issue that many management and human resources professionals deal with on a regular basis. There are numerous reasons for these kinds of differentials that occur, and they often seem justified in the outset. However, over time, wage compression can lead to low morale and hurt feelings within the ranks of previously loyal employees.

Examples of Salary Compression

Salary compression is not a new concept. For example, it is a common practice for an organization to offer a higher starting salary to sought after employees who may be seen as “rock stars” or as someone who has a great deal to offer the organization. Higher pay is used as an incentive to lure the candidate. It is also seen when viewing fixed salaried professionals like managers and supervisors versus hourly employees who are eligible for perks like shift differentials and overtime pay. Sometimes pay inequities occur after a consolidation of two or more functional areas that were run very differently from one another previously. Wage compression can also occur in an organization with a large percentage of low wage earners when the low wage rates are increased; as new hires come on, they are earning the same amount as those who may have been with the organization for years.

Impact of Wage Compression

Impacts of wage compression can be seen on a one to one level or across entire organizations. Those whose pay is compressed, or who are receiving less money, are likely to be

affected by low morale. They may feel discouraged, naturally. It doesn't make sense to continue working just as hard when their efforts are not perceived as being compensated.

This can lead to a more noticeable problem of poor performance in employees, which hurts the bottom line and ultimately affects everyone. There may also be retention issues related to salary compression. Those who feel slighted are more likely to look for alternate employment. High turnover rates are costly to any organization.

It may also be harder to recruit from within for higher level positions if employees see no economic benefit in accepting the added responsibility and work of a promotion.

Purpose of the Implementation Plan:

The foundation of the implementation calculation is one that is forward looking and does not look back on how current salaries came about. Transition to a new plan is not meant to change every pay decision, promotion or other legal changes in salary that have occurred over the tenure of the employee; nor is it meant to pretend the new pay structure should be retroactive in concept to the day an employee was hired.

To the extent that any uniform formula may result in unintended consequences, there may be isolated instances where administrative adjustments would be needed in order to address an inequity that is not readily apparent. This is not intended to address internal inequities, perceived by employees, that might result from previous pay structures or previous pay decisions. MAG assumes that all previous salary changes were based on information that was considered valid and appropriate at the time the decision was made.

SECTION 3.0
Selected Compensation Policy Recommendations

3.0 – Selected Compensation Policies

As part of the overall study, Management Advisory Group typically offers observations and recommendations regarding best practices in compensation policies. These observations are not meant to replace existing policies, but to provide a fresh look and compare the Town's compensation policies against "best practices". An objective statement of compensation policies also includes the expressed outcome to attract, reward, and retain qualified employees who can help the Town achieve its mission. In support of the vision statement, MAG observations may assist the Town as it strives to provide a total compensation program that enables the Town to:

- attract and retain a high-quality and diverse workforce;
- reward and retain qualified employees;
- provide a fair and consistent framework for assigning jobs;
- maintain salary structures at market competitive levels;
- ensure fair and consistent pay practices;
- comply with applicable laws and regulations; and,
- operate within the constraints of fiscal resources;
- be an employer that inspires excellence.

As an employer, the Town embraces a fair and equitable compensation plan to support achievement of the following goals.

1. The Town strives to provide a total compensation program that is fiscally sound, equitable and competitive in the defined marketplace.
2. Both benchmarking of select classifications and consideration of the job profile is used as a best practice for compensation of similar positions.
3. Competitive ranges are established for all positions to provide the flexibility needed to adapt to market changes, maintain internal equity and address needs of the Town that will ensure a high level of service to the residents of the Town.
4. Starting pay for new employees is based upon education and work experience related to positional requirements as well as market conditions.
5. Pay adjustments, other than allowances and supplements, are provided to employees when appropriate to address equity, market responsiveness, and consistency in the administration of the Town's compensation program.
6. Employees are eligible for pay increases resulting from true promotions and reclassifications.

3.0 Carrboro, NC

7. Part-time/temporary employees may not be eligible for the same benefits as full-time employees.
8. Fair Labor Standards requirements will be applied fairly and consistently to applicable positions.
9. Benefit plans and other non-cash compensation plans are reviewed periodically for competitiveness, cost effectiveness, and their value to employees and the Town.
10. Pay ranges for the Town job groups are reviewed as needed or required by collective bargaining agreements, but not less than every five years.

Compensation Policies:

The following recommendations cover recommendations for both the implementation of the plan, as well as, the on-going administration of the plan.

Numerous opportunities exist for varied work experiences and career advancement within the Town. The following outlines how associated pay changes can be administered based on the category of change. All final decisions on the administration of pay are subject to approval by the Town Council. In all instances of employee/job reassignment, the employee would be placed in the range, not to exceed the maximum of the range unless specifically stated. Unless otherwise stated, any change in pay would be effective with the next full pay period.

A. Reclassification

1. When a job has been reclassified to a higher pay grade, the employee's salary shall increase at least 5% in the new pay grade that includes the new salary but is not more than the maximum salary of the new pay grade.

If the reclassification results in an upgrade of one pay grade, the employee's pay will be moved upward by 5%. An upgrade of two or more pay grades will increase the employee's pay by an additional 2.5% increase for each additional pay grade, up to a maximum of 15%. Any increase of more than 10% would require documentation by the department or agency and a supporting recommendation from Human Resources.

For general reclassifications done as a result of an internal or external compensation study, or as a result of a normal budget process review, if the employee has been in the position since on, or before, the first day of the fiscal year, the effective date of any approved change will be the first day of the fiscal year, or the effective date of implementation as approved by the Town Council.

Otherwise, for an individual reclassification, done outside the normal budget cycle, the effective date of the pay increase will be consistent with the next full pay period.

Reclassification or changes in pay grade, whether resulting from an internal or external compensation study or individual change in pay grade, shall ***not be*** retroactive with respect to calculating the new salary.

Internal Equity Adjustments as a result of the implementation of a system-wide study shall not be subject to the same guidelines as the “Reclassification” guideline. Internal Equity Adjustments can be the result of the application of a formula, applied to all positions in the same pay plan, and are done to ensure that employees’ salaries are internally equitable and are not done to reflect an individual “job audit” of a single member incumbent.

Internal Equity Adjustments are also not tied to performance measures. ***The leadership may determine an Internal Equity Adjustment strategy that is separate and apart from the guidelines that cover reclassification.***

Internal Equity Adjustments, resulting from an internal or external comprehensive review, can be to a higher, or lower, pay grade and are not considered a reclassification, promotion or demotion.

2. When a job has been reclassified to a lower pay grade, the affected employee(s) shall have their pay grade adjusted accordingly. The effective date will be the day following the Council adoption date and the change will be reflected in the next full pay period.

If, after the pay grade adjustment, the employee(s) salary is greater than the maximum salary of the new pay range, the employee will continue to be paid at the higher rate of pay, the salary would be “frozen” and the employee is typically ineligible for any pay adjustment until the range “catches up” with the salary and allows for movement.

B. Promotion

1. When an employee is promoted, as a result of a job change or job progression, to a higher pay grade position, within the same, or to a different, salary schedule, the salary placement within the new pay grade shall be determined as follows: *apply 5% on the salary of the previous grade/schedule and salary for promotions of one pay grade, and an additional 2.5% for each additional pay grade up to a maximum of 15%.* The resulting pay will be no less than the minimum of the new pay grade and

3.0 Carrboro, NC

no less than a 5% salary increase, but not more than the maximum salary of the assigned pay grade. The effective date will be the day of approval.

2. There may be times when the uniqueness of an individual job and level or necessary skills required by the Town, and not just possessed by the incumbent, may require a higher salary schedule placement than stipulated in this section. Under such circumstances, the Town Manager *may approve a higher salary placement within the assigned pay grade.*

C. Lateral Transfer

A lateral transfer occurs when an employee is transferred from one job class to another in the same pay grade. When there is no change in pay grade there shall be no adjustment in base salary. A lateral transfer is not considered a reclassification or a promotion.

Temporary Assignment(s)

1. “Acting” or temporary assignment(s) occurs when the Town recognizes a critical job assignment need that must be met and cannot be met through the normal recruitment process. This can occur when an unexpected vacancy occurs; when a mission critical job cannot be filled in a timely fashion; or when a mission objective changes abruptly and requires an immediate action.
2. Temporary or “acting” assignment(s) would be anticipated to last more than 30 days, but less than 6 months. A temporary or “acting” assignment is to fill a vacancy and not to assume the duties of another employee who is on approved leave, i.e. vacation, holiday, medical, or other short-term absence(s).
3. If the position assigned is lower in pay grade (or substantially equivalent pay range) this would not result in a lower salary for the assigned employee even if the employee’s salary exceeded the maximum of the new pay range.
4. If the position assigned is higher in pay grade and extends beyond 30 days, but less than 6 months, there should be a 5% “temporary assignment” pay adjustment for the first pay grade and 2.5% for each additional pay grade to a maximum of 15% or the minimum of the grade, whichever is higher. The employee’s salary shall not exceed the maximum of the assigned range. Employees receiving temporary assignment pay shall sign an agreement acknowledging the understanding that they are receiving “Temporary Assignment Pay” and also acknowledging that when the temporary assignment ends, the “assignment pay” will also end.

D. Hiring

1. The hire rate for a new employee with no equivalent and/or relevant level experience is typically the minimum of the salary range to which the job classification is assigned.
2. New hiring rates (or re-hires) for employees may consider directly relevant experience and/or experience that can be verified by the Human Resources Department. *Employees who have left the Town and have been officially terminated will be re-hired using this formula and will not be rehired at the previous salary.* Re-hires who have left the Town's employ will be considered using the same formula as new hires.
3. Internal Equity is an equally important consideration in filling a vacant position. Before a salary offer is made, Human Resources will also consider the current salaries, level of education, relevant licenses/certifications and length of service in the same/similar job class or classes of current incumbents. It is the policy of the Town to make every effort to avoid inverted salary relationships by bringing in newly hired employees at a salary that exceeds the current salaries of comparably placed existing employees in the same/similar job class.
4. The Human Resources department may additionally consider a higher salary offer if the open position is determined to be a "hard to fill" position.

"Hard to fill" positions will be determined by the Human Resources Department and will be based on the length of time the position has remained unfilled, the difficulty to recruit, the "mission critical" nature of the work and the market conditions of the position, at the time of a vacancy.

5. Hiring Range is typically considered that span in salary between the minimum of the range and the market point for most positions. For Directorships or Assistant Director level positions, the qualifications of the applicant and/or the needs of the Town should include the discretion to hire anywhere within the range. However, consideration should still be given to existing salaries of other employees who are in directly comparable leadership positions.

E. Maximum of the Range

Ranges are established to reflect the market value of a given job profile and not an incumbent. Once an employee reaches the maximum of his/her assigned range, the salary is frozen, and the employee is not eligible for any additional compensation unless there is a range movement that would result in a higher maximum.

G. Salary Adjustment for Department Directors

There should be some flexibility for making salary adjustments for Departmental Directors beyond an annual increase, when it is based on exceptional performance. The salaries of other substantially equivalent employees should also be given consideration to not create undue inequity in the salary relationships between and among comparable levels of peers.

Future Salary Adjustment Recommendations

The cost to implement and maintain the compensation system should be driven by changes in the labor market and/or internal relationships and should be applied globally to the system, which, in turn, adjusts each salary range. Compensation systems that are well maintained address *two primary issues* on an annual basis:

- the cost to maintain competitiveness within the system; and
- the cost to adjust individual salaries.

From time to time, the Town may determine the need to adjust pay grades/ranges based on some factor, such as the Employment Cost Index (ECI) to maintain competitiveness at salary range minimums and hiring rates, as well as accommodate current incumbent pay progression within the grades. Ideally, funding permitting, the Town should conduct a salary/market review periodically to assess market conditions and ensure a competitive posture in personnel recruitment and retention. At this time, a more detailed comparison to the external market, as well as, to immediate competitors can be made using a comprehensive methodology such as that used in this review.

Proposed Compensation Plan

Regardless of an organization's philosophy concerning advancement opportunities afforded to employees, it is essential that movements in the economy, and more specifically, the labor market in which the Town competes, be addressed at the system level. Accordingly, salary administration procedures should take their priority based on funding levels and the Town's philosophies on pay.

Placement of Employees Within the New Proposed Ranges

For employees whose current salary level is below the minimum level in the assigned range, the salary level would be the minimum in the range.

For employees with current salary levels exceeding the maximum level in the assigned range, the salary would be frozen at that level, and the employee would be ineligible for any merit or cost of living increases until the range is adjusted to allow movement.

The placement of employees within the newly proposed salary plan is based on a formula designed to address internal equity. *No salary for any employee is recommended for reduction.* Each employee has a calculated target salary and is then recommended for placement within the range.

Proposed Compensation Under the New Plan

The Classification Manager[®] software has established a target salary for each employee by first calculating the cost to raise the incumbent to the minimum of the new range (if appropriate). A formula is then applied that calculates a target salary for the employee based on the total days of service in his/her proposed job class. This calculation is based on the number of days in the “Years to Maximum” and the difference between the range minimum and maximum, in dollars.

Plan Implementation

MAG recognizes that implementation of the new or revised compensation and classification programs must consider the financial disposition, current salary levels, and other variables unique to the Town. Only after all these factors are considered, can a feasible implementation program be designed. MAG has worked to provide an implementation plan that will address the current inequities and will provide a framework for external competitiveness.

It is especially important that during the current economic times that the Town retain its highly qualified work force by providing a fair, and competitive, compensation program. Additionally, it is equally important, that the Town does not overpay for positions. The proposed implementation plan carefully balances these two important considerations.
