Associated Findings

By a unanimous show of hands, the Planning Board membership indicated that no members have any financial interests that would pose a conflict of interest to the adoption of this amendment.

Motion was made by Susan Poulton and seconded by Braxton Foushee that the Planning Board of the Town of Carrboro finds the proposed text amendments, which would update the Land Use Ordinance to:

1. add an annual training requirement for the Planning Board and Board Adjustment
2. increase the membership of the Safe Routes to School Implementation Committee, which serves as a subcommittee of the Transportation, Mobility and Greenways Advisory Commission, from four to six and update the criteria for membership to require an association with one of the five schools in Carrboro
3. modify the criteria for membership, and the powers and duties of the Climate and Environmental Advisory Commission to include sustainability, resilience, tree protection and urban forests, heat resilience and biodiversity

is consistent with the provisions in Goal 5 of Land Use Chapter and Goal 2 of the Transportation & Mobility chapter of the Comprehensive Plan and section 15-2 of the Land Use Ordinance which specifies the authority granted to the Town through state enabling legislation.

Furthermore, the Planning Board of the Town of Carrboro finds the proposed text amendment is reasonable and in the public interest because the Town seeks to remain consistent with its adopted plans or policies.
