**Transportation Advisory Board Recommendation re: Tallyho Trail Traffic Calming**

The Transportation Advisory Board recommends to the Board of Aldermen that Stage 1 traffic calming measures be implemented immediately on Tallyho Trail, including speed radar deployment and speed enforcement (as Police Department availability allows), possible signage, and a neighborhood meeting on October 4<sup>th</sup>. Staff should examine Stage 2 traffic calming measures over the next few months to determine the appropriate strategy for Tallyho Trail. The TAB requests that they have opportunity to review the Stage 2 recommendations.
