### ARTICLE IX

### **ZONING DISTRICTS AND ZONING MAP**

#### PART I. ZONING DISTRICTS

### Section 15-137 Manufacturing Districts Established (AMENDED 6/22/82; 2/4/86).

- (a) The M-1 and M-2 districts are hereby created to accomplish the purposes and serve the objectives set forth in this subsection. Part of Article XI contains performance standards that place limitations on the characteristics of uses located in the districts created by this section.
  - (1) M-1 LIGHT MANUFACTURING. This zone is designed to accommodate a limited range of industrial activities and a wide range of commercial uses including wholesaling, storage, mail-order, auto related, and office and retail in conjunction with industrial or wholesaling uses. Permitted industrial uses include enterprises engaged in manufacturing, processing, creating, repairing, renovating, painting, cleaning and assembly where all operations are contained inside a fully enclosed building. The performance standards for the M-1 zone located in Part I of Article XI are more restrictive than those in the M-2 district.
  - (2) <u>M-2 GENERAL MANUFACTURING.</u> This district is designed to accommodate the widest range of industrial uses. Business operations may be conducted within and outside a fully enclosed building. The performance standards for this zone are less restrictive than those in the M-1 district.
- (b) There is also established a watershed light industrial (WM-3) zoning district. The purpose of this district is to allow areas within the University Lake Watershed that have been zoned M-1 prior to the effective date of this subdivision to continue to be used and developed for light industrial and related purposes, subject to certain restrictions designed to protect the watershed. Consistent with the purpose of this zone, this district shall be confined to that area zoned M-1 on the effective date of this subsection; this area shall not be expanded and no new WM-3 areas shall be designated. (AMENDED 12/7/83)
- (c) There is also established a Planned Industrial Development (PID) zoning district. The purpose of this district is to provide for the possibility of well planned and tightly controlled industrial development in areas that are suitable for such development but that are not deemed appropriate for M-1 or M-2 zoning because of the less restricted types of development that may occur in such zones. (AMENDED 6/22/82; 12/7/83)
  - (1) No area less than twenty contiguous acres may be zoned as a Planned Industrial Development district, and then only upon a request submitted by

- or on behalf of the owner or owners of all the property intended to be covered by such zone.
- (2) As indicated in the Table of Permissible Uses (Section 15-146) a planned industrial development (use classification 30.000) is the only permissible use in a PID zone.
- (3) Subject to subdivision (2) of this subsection, and consistent with the restrictions contained in the definition of a planned industrial development [see Subdivision 15-15(60)], land within a PID zone may be used in a manner that would be permissible if the land were zoned M-1, except that (i) the only permissible uses are those described in the 2.130 and 4.100 classifications and (ii) the performance standards (Article XI, Part I) applicable to 4.100 uses in business zones shall govern uses in a planned industrial development.

# <u>Section 15-147 Use of the Designations Z,S,C in Table of Permissible Uses</u> (AMENDED 11/18/03; 6/22/04; 10/25/05; 11/22/05; 6/26/07; 11/27/07; 10/28/08, 11/24/09. REWRITTEN 4/23/09)

- (a) Subject to Section 15-148, and subsection (h) of this section, when used in connection with a particular use in the Table of Permissible Uses (Section 15-146), the letter "Z" means that the use is permissible in the indicated zone with a zoning permit issued by the administrator (except that, in connection with use classification 26.200, minor subdivisions, the letter "Z" means that final plat approval shall be granted by the Planning Director). The letter "S" means a special use permit must be obtained from the board of adjustment, and the letter "C" means a conditional use permit must be obtained from the Board of Aldermen. (AMENDED 1/22/85; 11/18/03)
- (b) When used in connection with single-family, two-family and multi-family residences (use classifications 1.100, 1.200 and 1.300) outside the watershed districts, the designation "ZSC" or "SC" means that tracts developed with four dwelling units or less require a zoning permit, tracts developed with between five and twelve dwelling units require a special use permit, and tracts developed with more than twelve dwelling units require a conditional use permit. When used in connection with single-family, two-family, and multi-family residences in the watershed districts, the designation "ZC" means that tracts developed with one dwelling unit shall require a zoning permit and tracts developed with two or more dwelling units shall require a conditional use permit. (AMENDED 1/22/85; 2/24/87; 12/15/87)
- (c) When used in connection with major subdivisions (use classification 26.100) outside the watershed districts, the designation "SC" means that subdivisions containing between five and twelve lots shall require a special use permit, and subdivisions containing thirteen or more lots shall require a conditional use permit. (AMENDED 7/21/87; 12/15/87)
- (d) Subject to Section 15-148, use of the designation "ZC" (which designation appears only under the zoning district columns applicable to the commercial and manufacturing districts) means that a conditional use permit must be obtained if the development involves the construction of more than 3,000 square feet of new building gross floor area *or* the development is located on a lot of more than one acre, and a zoning permit must be obtained if the development involves the construction of 3,000 square feet or less of new building gross floor area *and* the development is located on a lot of one acre or less. (AMENDED 11/14/88) (REWRITTEN 4/23/13)
- (e) Subject to Section 15-148, use of the designation "Z,S" means that a zoning permit must be obtained if the development is located on a lot of two acres or less while a special use permit must be obtained for developments in excess of two acres.
  - (f) Use of the designation Z,S,C, for combination uses is explained in Section 15-154.
  - (g) When used in connection with use classification 18.400 (publicly-owned towers and antennas of all sizes that are used in the provisions of public safety services), the designation "ZC" means that the development of such towers that are fifty feet tall or less

shall require a zoning permit, and the development of such towers that are more than fifty feet tall shall require a conditional use permit. (AMENDED 10/04/88, 02/18/97)

- (h) Whenever any 1.000 classification use is proposed for a lot in the R-2, R-3, R-7.5, and R-10 zoning districts and such use would otherwise require the issuance of a zoning permit under the provisions of this section, a special use permit shall nevertheless be required if:
  - (1) The use involves (i) construction of an addition to an existing dwelling, or (ii) construction of an additional dwelling on a lot where at least one dwelling already exists, or (iii) construction of a dwelling on a lot from which a previously existing dwelling has been removed within a period of three years prior to the application for a permit under this chapter, and
  - (2) The gross floor area of any one dwelling unit exceeds 3,500 square feet, or the gross floor area of all dwellings covered by the proposed permit exceeds 5,500 square feet.
  - (3) This requirement shall not apply if at least one of the dwelling units is an affordable housing unit as defined in Section 15-182.4(a).
  - (4) This requirement shall not apply with respect to a proposed one-time addition to a dwelling that has been in existence for a period of at least twenty years if such one-time addition results in less than a 25 percent increase in the gross floor area of such dwelling and less than a 15 percent increase in the gross floor area of all dwellings covered by the proposed permit.
- (i) When used in connection with 8.100, 8.200, 8.500 and 8.600 uses, the designation "ZC(l)" means that a zoning permit must be obtained if the total area within a development to be used for this purpose does not exceed 1,500 square feet and the use is to take place in a building in existence on the effective date of this subsection while a conditional use permit must be obtained whenever the total area to be used for this purpose is equal to or exceeds 1,500 square feet.
- (j) Notwithstanding the other provisions of this section, whenever a building of more than two stories or 35 feet in height is proposed within the B-1(g), B-1(c), B-2, CT or M-1 zoning districts, a conditional use permit must be obtained from the Board of Aldermen. (AMENDED 10/25/05)
- (k) Notwithstanding the foregoing, Uses 22.200 Child Day Care Facilities serving nine to fifteen children, and 22.300 Senior Citizen Day Care, Class A, serving four to sixteen seniors, that are located on collector or arterial streets are permissible with a Zoning Permit issued by the

Administrator. For the purposes of this section, collector streets are those streets whose function and design meet the current town standards for classification as collector streets; and arterial streets are those listed in subsection 15-210.

- 1) Notwithstanding the foregoing, if a use within use classifications 2.112, 2.120, 2.150, 2.220, 2.230, 3.120, or 3.220 is proposed for an existing building within the WM-3 zoning district, and no other changes to the site are proposed that would require the issuance of a new permit under Section 15-46, then such use shall be permissible with a zoning permit. (Amended 10/28/08)
- m) Notwithstanding the foregoing, 5.110 uses may be permitted within the B-4 zoning district only when proposed within an existing building and when no other changes to the site are proposed that would require the issuance of a new permit under Section 15-46. (AMENDED 11/24/09)

# <u>Section 15-148 Board of Adjustment Jurisdiction Over Uses Otherwise Permissible With a Zoning Permit.</u>

- (a) Notwithstanding any other provisions of this article, whenever the Table of Permissible Uses (interpreted in the light of Section 15-147 and the other provisions of this article) provides that a use is permissible with a zoning permit, (i) a conditional use permit shall nevertheless be required if the administrator finds that the proposed use is located within the University Lake Watershed (i.e., the C, B-5, and WM-3 districts) and would have a substantial impact on neighboring properties or the general public, and (ii) a conditional use permit shall nevertheless be required if the administrator finds that the proposed use is located in the B-1(c), B-1(g), B-2, or CT zoning districts, the use is shown as permissible in those districts with a "ZC" designation in the Table of Permissible Uses, and the proposed use would have a substantial impact on neighboring properties or the general public; (iii) otherwise, a special use permit shall nevertheless be required if the administrator finds that the proposed use would have a substantial impact on neighboring properties or the general public. (AMENDED 01/22/85; 12/15/87; 02/25/92)
- (b) A special use permit shall be required for any use that is otherwise permissible with a zoning permit if the administrator concludes that, given the impact of the proposed use on neighboring properties, the vested right conferred upon the permit recipient pursuant to Section 15-128.2 should not be conferred without an opportunity for public input. A conditional use permit shall be required for any use that is otherwise permissible with a zoning permit if the administrator concludes that, given the impact of the proposed use on the general public, the vested right conferred upon the permit recipient pursuant to Section 15-128.2 should not be conferred without an opportunity for public input. However, if the zoning administrator makes this determination, the permit applicant may require that the application be returned to the zoning permit process by submitting to the administrator a written waiver of the vested right normally acquired under Section 15-128.2 upon the issuance of a zoning permit.
