Community Activities/Organizational Memberships	NC Warn member for 26 years. Less active member of other environmental groups - followed and supported denial of ACP Joined Haw River Assembly 2019. Am a Trash-trap volunteer. Trained as a Climate Reality Leader 2020, Volunteer program director for RTP High School Sailing, Active with HOA - committee focusing on invasive plants, garden manager, former Board President
Relevant Experience:	I was member of a group that met fall 2019 to support the Carrboro Climate Action Plan. We met with Sammy Slade and Randee Haven-O'Donnell. We familiarized ourselves with the plan and areas that were town responsibilities and areas that were for residents/businesses. Projects included an outreach during a Saturday Farmer's Market and generating education modules.

I was a coordinator for the outreach event and organized information for the Transportation Module to be used for a template for other modules. - Prior to being a teacher, I was a contract employee at the EPA, managing a neurotoxicology lab. I am interested in research and good practices for health and the environment. - When I was a teacher, a personal and professional interest was in communication, conflict resolution, and working in groups to solve problems. I am trained in the Mutual Learning Approach and Non-violent Communication. I was a member, then chair of our Social Inclusion Group, which worked with students, parents, and staff. I appreciate working in groups on projects, with the solutions that can come when all perspectives are heard and incorporated. Part of my work in communication at my school led to work on diversity with experiences with the Racial Equity Institute, Conversations on Equity series, book study, podcasts that continues to present with attempts to expose and remind myself of anti-racist thoughts, learning, and action. I have been a member of the CAT advisory board for the past two years. With many groups that I am involved in, I was active in education, outreach, and coordination. I would like to use those skills and experience on the Climate Action Team

Reasons You Wish to be Appointed

The Carrboro Climate Action Plan is a solid and impressive plan. I would like to see it implemented and would like to help.

We believe as a Town and as a Town Council that racial equity and diversity and inclusion are important. Please tell us your thoughts about this and why they are important not only in advisory board/commission work but also in all facets of local government and community work.

Keeping racial equity, diversity, and inclusion central is important as the government is a role model and is making core decisions that have impact. The decisions that are made have an opportunity to directly affect people's lives, as well as addressing the structural racism that exists in our lives and government. Issues of racial equity can arise in any part of life and require awareness and action at all levels. Racism has impacted the way life is set up now and we must continue to learn and be aware of how things came to be and how to change that when making decisions for the future. I was grateful that the Town Council kept the BLM signs on the the Town Hall. I appreciate the importance that I have seen regarding thought given in Council decisions to allocate resources equitably and to have race and equity be a focus of the implementation of this plan.
