

ARTICLE IX

ZONING DISTRICTS AND ZONING MAP

PART I. ZONING DISTRICTS

Section 15-137 Manufacturing Districts Established (AMENDED 6/22/82; 2/4/86).

(a) The M-1 and M-2 districts are hereby created to accomplish the purposes and serve the objectives set forth in this subsection. Part of Article XI contains performance standards that place limitations on the characteristics of uses located in the districts created by this section.

- (1) **M-1 LIGHT MANUFACTURING.** This zone is designed to accommodate a limited range of industrial activities and a wide range of commercial uses including wholesaling, storage, mail-order, auto related, and office and retail in conjunction with industrial or wholesaling uses. Permitted industrial uses include enterprises engaged in manufacturing, processing, creating, repairing, renovating, painting, cleaning and assembly where all operations are contained inside a fully enclosed building. The performance standards for the M-1 zone located in Part I of Article XI are more restrictive than those in the M-2 district.
- (2) **M-2 GENERAL MANUFACTURING.** This district is designed to accommodate the widest range of industrial uses. Business operations may be conducted within and outside a fully enclosed building. The performance standards for this zone are less restrictive than those in the M-1 district.

(b) There is also established a watershed light industrial (WM-3) zoning district. The purpose of this district is to allow areas within the University Lake Watershed that have been zoned M-1 prior to the effective date of this subdivision to continue to be used and developed for light industrial and related purposes, subject to certain restrictions designed to protect the watershed. Consistent with the purpose of this zone, this district shall be confined to that area zoned M-1 on the effective date of this subsection; this area shall not be expanded and no new WM-3 areas shall be designated. **(AMENDED 12/7/83)**

(c) There is also established a Planned Industrial Development (PID) zoning district. The purpose of this district is to provide for the possibility of well planned and tightly controlled industrial development in areas that are suitable for such development but that are not deemed appropriate for M-1 or M-2 zoning because of the less restricted types of development that may occur in such zones. **(AMENDED 6/22/82; 12/7/83)**

- (1) No area less than twenty contiguous acres may be zoned as a Planned Industrial Development district, and then only upon a request submitted by

or on behalf of the owner or owners of all the property intended to be covered by such zone.

- (2) As indicated in the Table of Permissible Uses (Section 15-146) a planned industrial development (use classification 30.000) is the only permissible use in a PID zone.
- (3) Subject to subdivision (2) of this subsection, and consistent with the restrictions contained in the definition of a planned industrial development [see Subdivision 15-15(60)], land within a PID zone may be used in a manner that would be permissible if the land were zoned M-1, except that (i) the only permissible uses are those described in the 2.130 and 4.100 classifications and (ii) the performance standards (Article XI, Part I) applicable to 4.100 uses in business zones shall govern uses in a planned industrial development.
