Experience to Aid You in Working on Advisory Boards*

I have 20 years experience in stormwater management, having recently retired as Water Quality Manager for the City of Durham's Stormwater Program. In 2017 I was recognized as Stormwater Professional of the Year by my peers in the NC American Public Works Association's Stormwater Division. Our program has been a leader in many areas. Innovative stormwater programs include: "State of Our Streams" annual report to citizens, illicit discharge detection and elimination (presenter on two national webcasts), watershed planning to assess problems and develop cost-effective solutions. I have served as a grant reviewer for NC Water Resources Research Institute. Prior to working in stormwater, I worked for 20 years primarily for national consulting environmental engineering firms working for municipal clients.

Reasons You Wish to be Appointed*

I would love to give back to my community, to continue to learn, and to network with others who have similar interests. My father and grandfather both served on commissions during their lifetimes. I, too, wish to serve my community. Carrboro faces challenges and opportunities that are somewhat different than those I have been working to solve, and offers an opportunity for creative approaches.

I responded No - I am not applying for successive term or reappointment to any Board or Commission.

After completing two full terms, a member must take off one year before applying for re-appointment to the advisory board. However, a board member may apply to serve on another advisory board if he/she desires. The Board of Aldermen may make exceptions to this rule under the following circumstances: 1. To retain diversity on an advisory board; 2. To provide continuity in oversight of a major, on-going project; 3. To keep a member who provides expertise otherwise unavailable on an advisory board (e.g., an engineer on the Planning Board or Board of Adjustment); or 4. A lack of qualified applicants.

Experience to Aid You in Working on Advisory Boards*

I am an aquatic ecosystem ecologist/biogeochemist with 20 years of experience in the research and management of aquatic ecosystems. My work, which has included teaching, research, and public policy, has focused on the ecology of freshwater ecosystems, including more than 12 years' experience in water quality standards development across the nation. I have provided technical support in environmental; assessment and protective criteria development for more than 30 states, tribes, and federal government agencies, have developed instructional materials for and led instructional workshops on environmental assessment, analysis, and criteria development across the nation, and have co-authored national guidance as well as scientific papers on the assessment, protection, and ecology of freshwater ecosystems. I have also been involved in several EPA Office of Research and Development ecological risk assessment projects involving causal analysis, multiple stressor analysis, and the effects of climate change on state water quality assessment and criteria programs. I currently manage a national nutrient criteria support center for EPA Office of Science and Technology and an Ecological Risk Support contract for the USEPA Office of Research and Development. I have authored more than 30 peer reviewed scientific papers, proceedings, book chapters, and more than 10 government reports, and more than 50 technical reports related to water quality and

Reasons You Wish to be Appointed*

I would like to apply the experience gathered over a 20+ year career in ecology, water quality science and management to helping protect environmental resources in my own community. I feel my expertise and experience would be a benefit to informing the identification and selection of sound strategies for managing our local environment into the future. I am particularly concerned about stormwater management and the opportunities now presented to Carrboro to better manage stormwater into the future.
