

SEPTEMBER 04, 2018
PUBLIC HEARING

#### **PROGRAM**

#### **PROGRAM**

#### PROJECT VISION STATEMENT

The 203 will be the area's new hub for arts and culture—a community oasis that nourishes the mind, body and soul. As a customer focused community center, it will connect Town and County residents to resources, tools and each other in the spirit of learning, making, and expressing our individual and collective values. By integrating vital public resources—the Orange County Southern Branch Library, The ArtsCenter, the Carrboro Recreation and Parks Department, and WCOM—The 203 will host traditional services as well as new collaborative programming that interconnect learning with the arts and leisure. This purpose-built facility will be an environmentally sustainable, functionally resilient destination that is welcoming and accessible to all.

#### **GUIDING SERVICE PRINCIPLES**

**Welcoming To All** – Staff create an accessible cultural destination that welcomes all regardless of race, gender, sexual orientation, or socio-economic status. Staff welcome patrons into an inclusive environment through customer friendly service interactions that are mindful of diverse experiences, needs, and expectations. They ensure that the community can easily access quality services regardless of physical location or media platform while clearly articulating how those services can add value to a patron's endeavors.

**Collaboration** – Staff work across organizational boundaries to connect the community with multiple modes of learning, leisure and creative expression to enrich their experience. Through cross-disciplinary classes and counter programming, staff build relationships between community members and partner organizations and between the Town of Carrboro's culture, Orange County and the world.

**Technology** – Staff offer access and instruction in the use of technology platforms—how to access, filter, evaluate and produce content. Access to tech tools, expertise, and high speed internet will help to democratize technology for all.

**Efficiency** – Staff and services will be combined not only to share amenities and infrastructure but also to streamline the customer experience through a one-stop-shop service destination. Integration of staff and services not only creates opportunities for collaborative program development but also improves grant funding potential through synergistic partnerships.

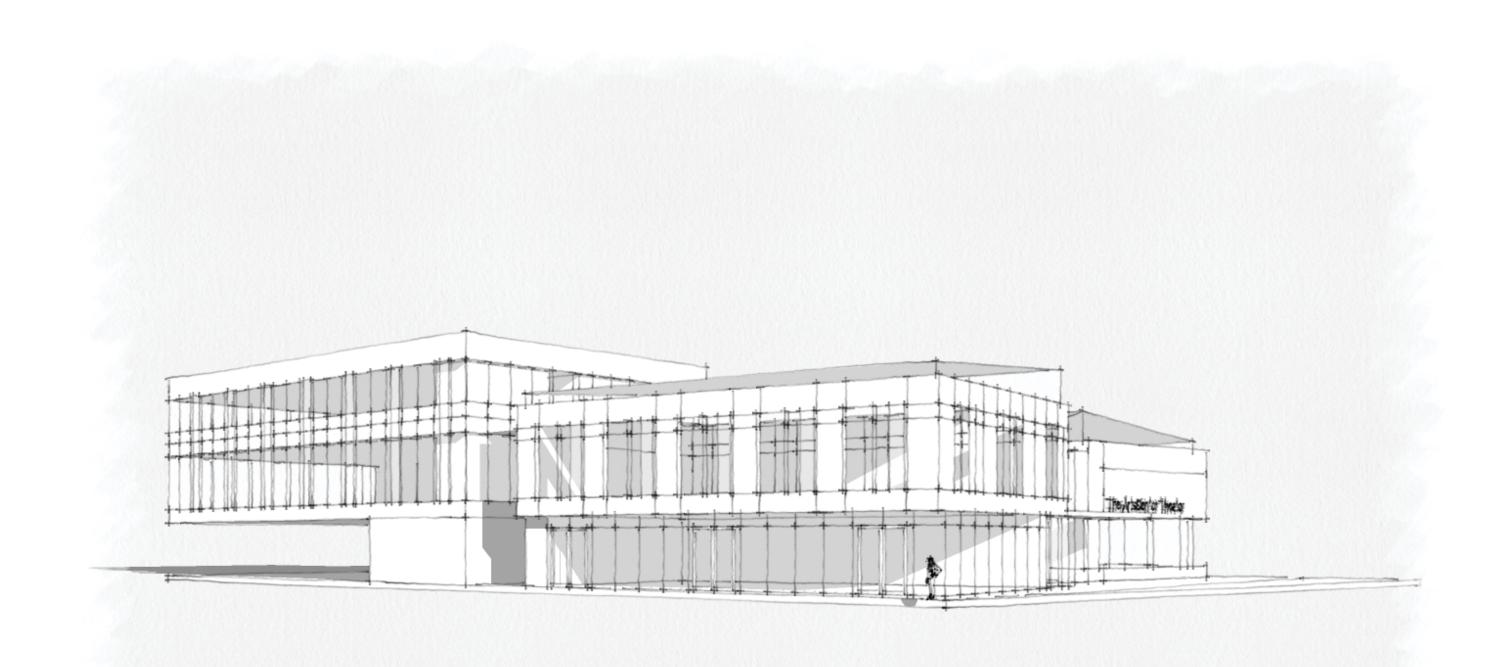

#### **GUIDING SPATIAL PRINCIPLES**

**Welcoming To All** - Diverse spaces and resources accommodate individual choice, and varied uses ensure that The 203 is accessible to everyone. **Blended service points** streamline services by putting the customer's needs first. Intentional **flexibility** will support a nimble organization ready to **adapt to changing customer preferences**.

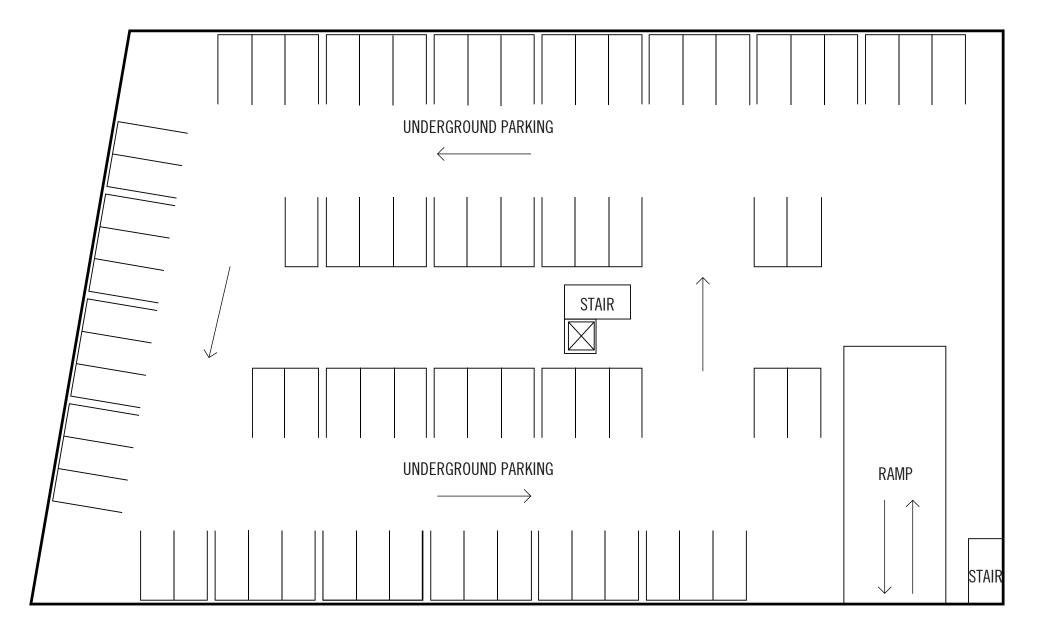

**Collaboration** - Spaces effortlessly support The 203 users in finding services and **connecting to one another** to build **communities of shared interest**. **Moving between** informal activities and formal programs, one partner organization to another, physical and digital production, and indoor and outdoor spaces should be easy and intuitive.

**Technology** – High and low technology are seamlessly **integrated into the architecture** and user experience to support learning, the creative arts, research, entrepreneurship, and media production. **Adaptable and scalable infrastructure** supports the technology of today while anticipating future technologies yet to be imagined.

**Efficiency** – Spaces are designed to be **flexible**, **resilient**, and environmentally **sustainable**. **Shared infrastructure** economizes on space demands, **reduces spatial redundancies**, and integrates more robust, high efficiency building systems. Efficient building design combined with **higher density planning** leads to lower first and extended life-cycle costs that speak to The 203's **responsible stewardship of public funds**.

#### ROUGH ORDER OF MAGNITUDE COST COMPARISON

	RATE	TOTAL	RATE	TOTAL	RATE	TOTAL
COMMONS	\$300	\$20,361,400	\$350	\$23,101,300	\$400	\$25,841,200
Balance of Parking		\$2,680,000		\$2,680,000		\$2,680,000
FLOAT	\$300	\$19,293,000	\$350	\$21,934,000	\$400	\$24,575,000
Balance of Parking		\$2,460,000		\$2,460,000		\$2,460,000
PLAZA	\$300	\$21,609,700	\$350	\$24,475,150	\$400	\$27,340,600
Balance of Parking		\$2,260,000		\$2,260,000		\$2,260,000

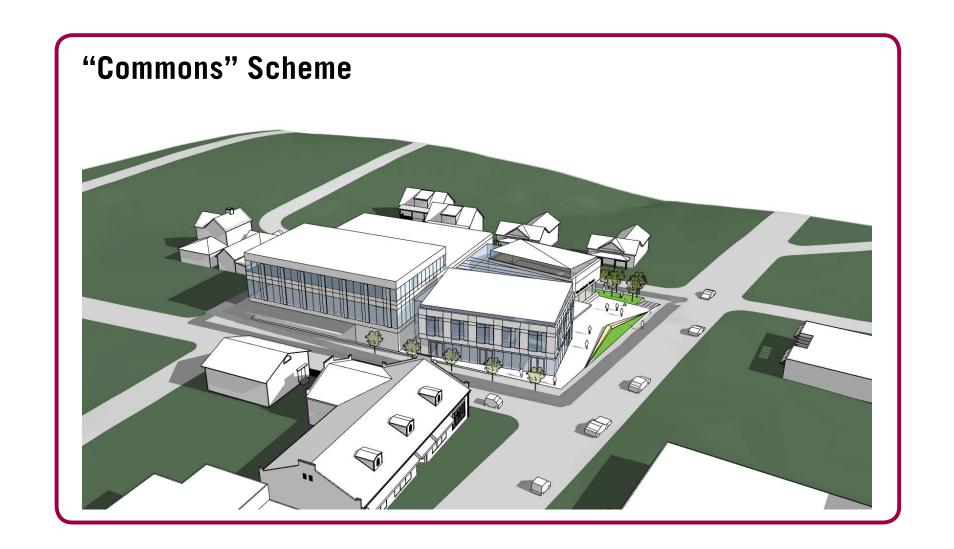

<sup>\*</sup> Parking demand/need analysis to accommodate projected new and existing utilization is underway. Reports on parking strategies for the short term (i.e. during construction) will be presented to the Board of Aldermen on September 17th. Strategies for the project during occupancy will be presented at a meeting in October (date TBD).
