

TOWN OF CARRBORO

LAND USE ORDINANCE AMENDMENT REQUEST

To the Board of Aldermen, the Planning Board, and the Appearance Commission, as appropriate, of the Town of Carrboro:

I (we), the undersigned do hereby respectfully make application and petition the Board of Aldermen to amend the Land Use Ordinance. In support of this application, the following facts are shown:

- 1) The Land Use Ordinance, at present, would allow (description/quote, page and number of section in question):

R-10 allows for residential use to allow persons who reside there a comfortable, healthy, safe and pleasant environment in which to live sheltered from incompatible and disruptive activities that properly belong in non-residential districts. (Sec. 15-135(a))

- 2) The proposed amendment to the Land Use Ordinance would allow (describe briefly intended change):

R-10 would allow utility uses if new building/use was less than 2000 square feet in size and within 200 feet of a raw water source and was used to support the production of finished water supply

- 3) State the reasons for the proposed amendment:

This change would allow for a new sodium permanganate facility to be placed near university lake and allow for improved finished water production and quality at the Jones Ferry Water Treatment plant that provides drinking water to Carrboro and Chapel Hill.
