Reasons You Wish to be Appointed*

I have always had a strong interest in environmental issues and have been composting for 30 years along with using rain barrels, growing our own vegetables, buying local, and recently, recycling food waste at the Carrboro Farmers Market. I want to be part of encouraging our citizens to do more, e.g., with food waste, since it creates methane in the landfill (and we don't even have our own landfill anymore) and also reduction in the use of plastics. It's not enough to just recycle now. I want to implement new ways to encourage citizens to create less waste through education and collaboration (schools, grocery stores, etc.). I know some restaurants have their food waste picked up, for example, so how can we make it possible for all commercial food producers to recycle their food waste? Methane is just one facet of climate change, of course, but it is an example of something most people don't think about or know about and could be encouraged to create less of. Incentives for increasing bus ridership are always important, too. I believe in encouraging lots of people to make small changes that add up to big shifts in environmental quality.

If yes, please describe how you meet one, or more, of the following exceptions noted below. *

I don't meet any of these exceptions.

After completing two full terms, a member must take off one year before applying for re-appointment to the same advisory board. However, a board member may apply to serve on another advisory board if he/she desires. The Board of Aldermen may make exceptions to this rule under the following circumstances: 1. To retain diversity on an advisory board; 2. A lack of applicants.

Experience to Aid You in Working on Advisory Boards*

I have expertise and experience working on energy policy and economics, as well as experience working at the local level. I worked as an air quality policy analyst for 29 years at the US EPA, including work on the economics and jobs impacts of climate policy. I helped write Carrboro's Community Climate Plan in 2014-15 as a member of the Community Climate Plan Task Force. I also helped with the Solarize program in Orange County. I retired from the EPA two years ago and since then have been working on energy and environmental issues (and other issues) at the local and state level.

Reasons You Wish to be Appointed*

Climate change is an existential crisis affecting all of us and all of civilization. We need to do our part at the local level to implement solutions that reduce (and ultimately eliminate) our use of fossil fuel, both in electricity use and transportation. I want to serve on the climate council because I want to use my knowledge and abilities to help with this incredibly important task.

Experience to Aid You in Working on Advisory Boards*

I studied and took great interest in environmental science in high school; in college I excelled in courses on environmental policies/politics and environmental justice. I continue to follow developments via WUNC, and I learn more about the history of environmental science and politics in the books I read in my free time.

Reasons You Wish to be Appointed*

Carrboro has become my home these last few years and I plan on building a family with my husband here. We are both very concerned about the declining state of our planet. This position would fulfill my desire to protect our community, our home.
