TITLE:

Stormwater Utility Monthly Report

PURPOSE: The purpose of this item is to provide the monthly update regarding Stormwater Utility projects and initiatives.

DEPARTMENT: Public Works

CONTACT INFORMATION: Randy Dodd, Stormwater Utility Manager, 919 918-7341

INFORMATION: The report identifies 12 separate projects and initiatives that Stormwater staff are currently or will be involved in in FY 20/21. These are specific efforts, some time-limited and others part of ongoing stormwater program development, that are above and beyond the baseline workload that includes but is not limited to: program administration; responding to requests for support and community outreach; stormwater system inspection and maintenance; reviewing development plans; stream determinations/buffer reviews; and illicit discharge response and pollution prevention.

Work has been pursued since the last monthly report in March and the follow on RainReady work in April/May for many of these items, as presented in the report. An emphasis of Stormwater staff work during the summer, beyond core and ongoing program work activities, has included: bidding (Broad Street culvert) and overseeing construction (Public Works stream restoration) for the two active capital projects; preparation for and participation in the NPDES permit audit; recruiting for the new Stormwater Administrator, and filling the position (Emily Cochran); drafting of a Homeowner's Watershed and Stormwater Manual; and CityWorks implementation for workflow and asset management.

FISCAL & STAFF IMPACT: There is no fiscal impact associated with this update. There are/will be nearer and longer term fiscal and staff impacts, as presented in the report.

RECOMMENDATION: It is recommended that the Council receive the staff report.
